The Ministry of Defense of the Republic of Azerbaijan warns Armenia and its supporters.

"The Ministry of Defense of the Republic of Azerbaijan has reported that recently, Armenia has committed provocations using heavy weapons in the Kalbajar and quadcopters in the Tovuz directions.

It should be noted that such provocations by Armenia are not the first and have become systematic. The military exercises conducted by the United States in Armenia, the provision of lethal weapons to Armenia by France, and the initial phase of military aid in amount of ten million euros provided to Armenia by the European Union under the guise of the European Peace Facility encourage the occupying state - Armenia to carry out such provocations and indicate its preparation for another war against Azerbaijan.
