MIDDLE CORRIDOR TRANSPORTS FIRST CARGO SHIPMENT FROM JAPAN

- 27.02.2025

Astana Times (27 February 2025)

Japan completed its first-ever trial shipment through the Trans-Caspian International Transport Route (Middle Corridor) to Türkiye, Trend reported on Feb. 25.

The cargo departed from Nagoya, traveled through China and Georgia, and was delivered to Türkiye by Danish shipping and logistics company Maersk.

Central Asia and Caucasus Region Business Development Head Irakli Danelia highlighted that the Middle Corridor is becoming an important leverage point for diversifying supply chains from China, Japan, and South Korea to Georgia, Azerbaijan, and landlocked Central Asian countries, including Kazakhstan, Uzbekistan, and Turkmenistan.
