*During a working visit to Jinan, Shandong Province, President of the Kyrgyz Chamber of Commerce and Industry Temir Sariyev signed a memorandum of understanding with the Chinese New Energy Technology Co., Ltd., Trend reports via the chamber.*

As the accord seeks to enhance synergistic collaboration in the domain of electric vehicle production and cutting-edge technological advancements, the parties discussed partnership opportunities and expressed mutual interest in technology exchange and future joint projects.

During the visit, the Kyrgyz delegation rolled up their sleeves and took a deep dive into the industrial zones in the province, where they found over 300 factories buzzing with activity across a variety of sectors. It was noted that the zones are supported by government initiatives and offer comprehensive infrastructure for workers and enterprises.
