'Audacity of Israeli envoy for his vile statements stems from the fact that he represents a murderous state,' says Greek Communist Party

Greece's left-wing opposition on Monday slammed Israel's envoy in Athens for criticizing the city's mayor over antisemitic graffiti in the city.

The audacity of the Israeli Ambassador in Athens for his vile statements stems not only from the fact that he represents a murderous state, but also from the fact that the Greek government has evolved into a key advocate for Israel's crimes against the Palestinian people, under the pretext of a strategic alliance with it, the Greek Communist Party (KKE) said in a statement.
