Armenias National Assembly Speaker Alen Simonyan has said he expects the presidents of Azerbaijan and Türkiye to attend the 8th European Political Community (EPC) Summit, scheduled to take place in Yerevan in May 2026.

Simonyan made the remarks while responding to Azerbaijani media reports that President İlham Aliyev would not participate in the summit, News.Az reports, citing Armenian media.

We expect that all countries that have traditionally participated will find a way to visit the Republic of Armenia during this important event. I dont think any other logic should be read into this, as it is clear that in such a case, the president of Azerbaijan will either make a statement or some official action will take place, Simonyan said.
