04.02.2026

News.az (4 February 2026)

Israel and Azerbaijan have signed a Memorandum of Understanding (MoU) on artificial intelligence, marking a new phase in their strategic partnership and highlighting both countries ambitions to strengthen their positions in the rapidly evolving global AI landscape.

The MOU is the next step in advancing the State of Israel toward global leadership in the field of AI, as part of the flagship goals of Prime Minister Benjamin Netanyahu. This follows the signing of a joint declaration in this field with the US last month, News.Az reports, citing the Prime Ministers Office.

The declaration was signed, in the presence of Prime Minister Benjamin Netanyahu, by the Head of the National Artificial Intelligence Directorate, Brig. Gen. (Res.) Erez Askal, and Azerbaijans Minister of Digital Development and Transport Rashad Nabihev.
