KAZAKHSTAN DIGITIZES SCIENTIFIC INFRASTRUCTURE DATA FOR FIRST TIME

-   31.03.2026

Kazinform News Agency (31 March 2026)

Nariman Mergalym

Minister of Artificial Intelligence and Digital Development Zhaslan Madiyev spoke about the digitalization of scientific infrastructure data at a Government's meeting, Qazinform News Agency reports.

According to him, a unified window of the National Innovation System has been implemented on the astanahub.com platform to improve the transparency and efficiency of state support measures.

For the first time in Kazakhstan, data on scientific infrastructure have been digitized, including information on laboratories, equipment, procurement, and research institute profiles, Zhaslan Madiyev said.
