17.06.2026

Anadolu Agency (17 June 2026)

Ahmet Gencturk

Athens expected to contribute with one frigate, one support vessel, reports local media.

Greece might send naval units for mine-clearing and policing operations in the Strait of Hormuz, local media reported on Wednesday.

Greece is expected to contribute a MEKO-class frigate, which is already participating in the European Unions Operation Aspides in the Red Sea region, along with a general support ship, likely the support vessel Prometheus, the daily Kathimerini reported.
