## KAZAKHSTAN SIGNS DEAL TO CREATE 'DATA CENTER VALLEY'

-

17.06.2026

---

Eurasianet (16 June 2026)

*Astana opting for American chips and technology.*

The Kazakh government has inked a \$10 billion deal with US chip-making giant Nvidia and an Armenian-American cloud company to develop a 'Data Center Valley' in the countrys northern Pavlodar region. The deal is seen as anchoring a broader effort to turn Kazakhstan into a global digital hub.

Kazakhstan recently adopted a development strategy called Digital Qazaqstan to guide the countrys transformation into a cognitive economy through 2029.
