## **ESCAP PROPOSES PHASED MODEL FOR INTEGRATING ENERGY SYSTEMS OF CENTRAL ASIA AND AZERBAIJAN**

-

25.06.2026

---

Report (25 June 2026)

Kamran Gasimov

The Trans-Caspian Green Energy Corridor, which will connect Central Asia with Azerbaijan, may become a long-term strategic route for exporting surplus electricity produced from renewable energy, Sergey Tulinov, Project Manager for the Secretariat of the United Nations Economic and Social Commission for Asia and the Pacific (ESCAP), said at the Annual Meeting and Business Forum of the Eurasian Development Bank (EDB), Report informs.

According to him, the development of renewable energy in Central Asia should occur in stages, which will allow for the gradual expansion of regional cooperation opportunities and the formation of a mutually beneficial electricity market.
