Georgian Prime Minister Irakli Kobakhidze called for further strengthening strategic ties between Azerbaijan, Georgia and Türkiye, saying relations with the two neighbours were developing positively.

Kobakhidze said Georgia had very good dynamics in its relations with Azerbaijan and Türkiye and that work to deepen those ties would continue, Caliber.Az reports, citing Georgian media.

He also highlighted a project to lay a submarine cable across the Black Sea to transmit electricity and digital communications. Experts have included the project among initiatives of common interest with the European Union.
