ArmenPress (30 September 2026)

Armenias Minister of High-Tech Industry and Artificial Intelligence Davit Tadevosyan has dismissed comments by a Russian military expert aired on Russian television claiming that the Firebird AI data center in Hrazdan could serve U.S. intelligence interests.

Asked at a press briefing to comment on a Vesti program during which Russian military expert Alexey Leonkov made the claim, Tadevosyan said he considered the assessment politically motivated.

I think it is a politically motivated assessment, the minister said.
