Minister of Territorial Administration and Infrastructure Davit Khudatyan received a delegation led by Mustafa Pustu, Chairman of the Board and General Manager of the Turkish Electricity Transmission Corporation, on 5 October.

Khudatyan reported the meeting on his Facebook page, outlining the discussions.

We discussed the work to restore and bring into operation the Gyumri [] power transmission line as part of the Armenia [] normalisation process. We emphasised the importance of interconnecting the electricity systems of Armenia and Türkiye in the context of both bilateral and regional cooperation.
