## **NVIDIA CHIEF TAPS ASTANA AS AI HUB**

-

27.10.2026

---

Eurasianet (26 October 2026)

Kazakhstan marked perhaps the high point of its presidentially proclaimed year of artificial intelligence with a visit by technology titan, Jensen Huang, CEO of Nvidia, who said the Central Asian state has the potential to become a global hub for Physical AI.

Huang and Kazakh President Kassym-Jomart Tokayev met on October 23 for talks aimed at bolstering collaboration between the chipmaking giant and Kazakh companies. Huang praised the Kazakh tech ecosystem as possessing all the prerequisites to become an AI power.
