Kazakhstan is discussing a $50 million investment in a transport and logistics hub in the Zhetysu Region and a 90-day pilot project to digitize freight operations along the Middle Corridor, as the country seeks to expand its transit capacity and improve cargo movement between China and Europe.

The initiatives were discussed during meetings between Foreign Minister Mukhtar Tileuberdi and senior executives of three Belgian companies  Sarens Group, Ahlers Logistics and BIM e-Solutions – during his working visit to Belgium on Nov. 16, according to the ministry.
